

SAY YES

D

You could drive away the death
letter

F#m

That's fallen at my door

G

D

Autumn nights are filled with
shadows

A

I can't face them anymore

D

There's a pressure that I just can't
hide

F#m

It's chokin' all the tears

G

D

I've walked this street too many
times

A

What's left for me here?

G

Chorus: Say yes, open up the
sky

Bm

Say yes, don't ask why

G

D

Say yes, let me be in love
tonight

We both came from the outside

And found ourselves alone

Madness chased us down the path

To the edge of the unknown

With a common dream that's past
the grasp

Of the daily working dead

Don't think of friends or strangers

Or what somebody else said (cho.)

So many times I stopped myself

I don't know why I should

I was fooled by superstition

And the lies that do no good

You could walk away forever

At the dawn of winter's chill

You could stay, we'll open up our
hearts

Till the secret fears are still (cho.)
